

FORMULA 1600

Entry-level blast systems for light industrial applications or when blasting is required on an intermittent basis.

Bearing the Guyson brand name guarantees the highest levels of efficiency, reliability and quality. Guyson success for over 80 years has been founded on quality equipment.

The strong, durable, high quality sheet metal construction ensures the cabinet is tough enough for a variety of components and regular use.

The Guyson Formula 1600 features include:

- Right-hand side opening door with pneumatically operated safety switch to prevent accidental blasting when open
- Sealed gauntlet gloves - 26" long
- Protected toughened glass viewing window
- Model 400 gun - footpedal operated
- Post blast airwash gun - trigger operated
- Quick-release media changeover facility
- LED lighting with rear-mounted switch and both the UK and European single-phase plugs

F1400 and F1600 Models with foot operated blast guns are ideal for small workshops, garages and maintenance departments.

FORMULA MANUAL BLAST CABINETS

FORMULA	F1200	F1400	F1600
